Intermediate Filaments^a

Editors

E. WANG, D. FISCHMAN, R. K. H. LIEM, AND T.-T. SUN

CONTENTS

Part I. Vimentin

Intermediate Filaments: Possible Functions as Cytoskeletal Connecting Links between the Nucleus and the Cell Surface. <i>By</i> ROBERT GOLDMAN, ANNE GOLDMAN, KATHLEEN GREEN, JONATHAN JONES, NORMAN LIESKA, AND HSI-YUAN YANG.....	1
Cross-Linking of Intermediate Filaments to Microtubules by Microtubule-Associated Protein 2. <i>By</i> GEORGE S. BLOOM, FRANCIS C. LUCA, AND RICHARD B. VALLEE	18
Intermediate Filament Associated Proteins. <i>By</i> EUGENIA WANG	32
The Mammalian Stress Response and the Cytoskeleton: Alterations in Intermediate Filaments. <i>By</i> W. J. WELCH, J. R. FERAMISCO, AND S. E. BLOSE	57
Are Intermediate Filament Proteins Involved in Gene Expression? <i>By</i> PETER TRAUB	68
The Chicken Vimentin Gene: Aspects of Organization and Transcription During Myogenesis. <i>By</i> Z. E. ZEHNER AND B. M. PATERSON.....	79
Vimentin and Desmin cDNA Clones: Structural Aspects of Corresponding Proteins and Genes. <i>By</i> HANS BLOEMENDAL, WIM QUAX, YVONNE QUAX-JEUKEN, RICHARD VAN DEN HEUVEL, WILMA VREE EGBERTS, AND LEON VAN DEN BROEK.....	95

^a The papers in this volume were presented at a conference entitled International Conference on Intermediate Filaments, which was held by the New York Academy of Sciences on May 21-23, 1984.

Part II. Desmin

Interactions between IFs, Microtubules, and Myofibrils in Fibrogenic and Myogenic Cells. <i>By</i> H. HOLTZER, S. FORRY-SCHAUDIES, A. DLUGOSZ, P. ANTIN, AND G. DUBYAK.....	106
Intermediate Filaments: Structural Conservation and Divergence. <i>By</i> KLAUS WEBER AND NORBERT GEISLER.....	126
Expression of the Genes Coding for the Intermediate Filament Proteins Vimentin and Desmin. <i>By</i> JOHN NGAI, YASSEMI G. CAPETANAKI, AND ELIAS LAZARIDES.....	144
Cultured Chick Blastodisc Cells Diverge into Lineages with Different IF Isoforms. <i>By</i> J. BIEHL, S. HOLTZER, G. BENNETT, T. SUN, AND H. HOLTZER.....	158
Monoclonal Antibodies to Desmin: Evidence for Stage-dependent Intermediate Filament Immunoreactivity during Cardiac and Skeletal Muscle Development. <i>By</i> D. A. FISCHMAN AND S. I. DANTO.....	167
Subunit Structure of Desmin and Vimentin Protofilaments and How They Assemble into Intermediate Filaments. <i>By</i> WALLACE IP, J. E. HEUSER, Y.-Y. SUSANA PANG, MICHAEL K. HARTZER, AND RICHARD M. ROBSON.....	185
Intermediate Filaments in Skeletal and Cardiac Muscle Tissue in Embryonic and Adult Chicken. <i>By</i> K. T. TOKUYASU, PAMELA A. MAHER, ANNE H. DUTTON, AND S. J. SINGER.....	200
Intermediate Filament and Associated Proteins in Heart Purkinje Fibers: A Membrane-Myofibril Anchored Cytoskeletal System. <i>By</i> LARS-ERIC THORNELL, ANDERS ERIKSSON, BENGT JOHANSSON, UNO KJÖRELL, WERNER W. FRANKE, ISMO VIRTANEN, AND VELI-PEKKA LEHTO.....	213

Part III. Keratin

Keratin Antigens in Differentiating Skin. <i>By</i> E. BIRGITTE LANE, JIRÍ BÁRTEK, PATRICIA E. PURKIS, AND IRENE M. LEIGH.....	241
Intermediate Filament Proteins as Distinguishing Markers of Cell Type and Differentiated State in Cultured Human Urinary Tract Epithelia. <i>By</i> JAMES G. RHEINWALD AND THERESE M. O'CONNELL.....	259
Preferential Phosphorylation of Keratins and Vimentin During Mitosis in Normal and Transformed Human Amnion Cells. <i>By</i> JULIO E. CELIS, STEPHEN J. FEY, PETER MOSE LARSEN, AND ARIANA CELIS.....	268

Patterns of Expression and Organization of Cytokeratin Intermediate Filaments. By ROY A. QUINLAN, DOROTHEA L. SCHILLER, MECHTHILD HATZFELD, THOMAS ACHTSTÄTTER, ROLAND MOLL, JOSÉ L. JORCANO, THOMAS M. MAGIN, AND WERNER W. FRANKE.....	282
Monoclonal Antibody Studies of Mammalian Epithelial Keratins: A Review. By TUNG-TIEN SUN, SCHEFFER C. G. TSENG, ANDREW J.-W. HUANG, DAVID COOPER, ALEXANDER SCHERMER, MARION H. LYNCH, ROBERT WEISS, AND RIVA EICHNER.....	307
Filaggrin: A Keratin Filament Associated Protein. By B. A. DALE, K. A. RESING, AND J. D. LONSDALE-ECCLES.....	330
Relation of the Intermediate Filament Distribution Center to Keratin Filament Dynamics <i>in Vivo</i> : Cells at the Edge of an Experimental Wound. By BARRY S. ECKERT AND SUSAN E. CAPUTI.....	343
Postsynthetic Modifications of Epithelial Keratins. By A. VIDRICH, M. E. GILMARTIN, J. MITCHELL, AND I. M. FREEDBERG.....	354
Conformity and Diversity in the Structures of Intermediate Filaments. By ALASDAIR C. STEVEN, BENES L. TRUS, JAMES F. HAINFELD, JOSEPH S. WALL, AND PETER M. STEINERT	371
Human Epidermal Keratin Filaments: Studies on Their Structure and Assembly. By RIVA EICHNER, PAMELA REW, ANDREAS ENGEL, AND UELI AEBI.....	381
Genes for Hair and Avian Keratins. By GEORGE E. ROGERS.....	403
The Use of cDNA Clones and Monospecific Antibodies as Probes To Monitor Keratin Gene Expression. By DENNIS R. ROOP, CHRISTINA K. CHENG, RUNE TOFTGARD, JOHN R. STANLEY, PETER M. STEINERT, AND STUART H. YUSPA.....	426
The Nature and Significance of Differential Keratin Gene Expression. By ELAINE FUCHS, ISRAEL HANUKOGLU, DOUGLAS MARCHUK, MICHAEL P. GRACE, AND KWAN HEE KIM.....	436
Structural and Functional Implications of Amino Acid Sequences of Keratin Intermediate Filament Subunits. By PETER M. STEINERT, WILLIAM W. IDLER, XIAO-MEI ZHOU, LESLYE D. JOHNSON, DAVID A. D. PARRY, ALASDAIR C. STEVEN, AND DENNIS R. ROOP.....	451

Part IV. Neurocytoskeleton

Function and Evolution of Neurofilament Proteins. By RAYMOND J. LASEK, LINDA PHILLIPS, MICHAEL J. KATZ, AND LUCILA AUTILIO-GAMBETTI.....	462
--	-----

Differential Expression of the Three Neurofilament Polypeptides. <i>By</i> MARCIE A. GLICKSMAN AND MARK WILLARD	479
Associated Proteins as Possible Cross-Linkers in the Neuronal Cytoskeleton. <i>By</i> RONALD H. K. LIEM, JOEL S. PACHTER, EUGENE W. NAPOLITANO, STEVEN S. M. CHIN, ETY MORARU, AND RUTH HEIMANN	492
Interactions between Microtubules and Neurofilaments <i>in Vitro</i> . <i>By</i> ROBLEY C. WILLIAMS, JR. AND ERIC J. AAMODT	509
Recent Studies of the Glial Fibrillary Acidic Protein. <i>By</i> LAWRENCE F. ENG, MARION E. SMITH, JEAN DE VELLIS, AND ROBERT P. SKOFF	525
A Protein Related to Glial Filaments in Schwann Cells. <i>By</i> S.-H. YEN AND K. L. FIELDS	538
Calcium-activated Proteolysis of Intermediate Filaments. <i>By</i> WILLIAM W. SCHLAEPFER AND UN-JIN P. ZIMMERMAN	552
Glial Filaments in Brain Differentiation and the Transient Expression of Neurofilaments in Purkinje Cell Development. <i>By</i> A. BIGNAMI AND D. DAHL	563
Structural Implications of a cDNA Clone Encoding Mouse Glial Fibrillary Acidic Protein. <i>By</i> NICHOLAS J. COWAN, SALLY A. LEWIS, JOANNA M. BALCAREK, VERONICA KREK, AND MICHAEL SHELANSKI	575

Part V. Intermediate Filaments in Pathology

Paired Helical Filaments in Human Neurons: Relationship to Neurofilaments. <i>By</i> D. J. SELKOE, C. ABRAHAM, C. G. RASOOL, A. MCCLUSKEY, K. S. KOSIK, AND L. K. DUFFY	583
Cell-Cell Interaction and Cell Configuration Related Control of Cytokeratins and Vimentin Expression in Epithelial Cells and in Fibroblasts. <i>By</i> AVRI BEN-ZE'EV	597
Intermediate Filament Proteins in the Study of Tumor Heterogeneity: An In-Depth Study of Tumors of the Urinary and Respiratory Tracts. <i>By</i> F. C. S. RAMAEKERS, O. MOESKER, A. HUYSMANS, G. SCHAART, G. WESTERHOF, SJ. SC. WAGENAAR, C. J. HERMAN, AND G. P. VOOIJS	614
Diagnostic Application of Monoclonal Antibodies to Intermediate Filaments. <i>By</i> I. VIRTANEN, M. MIETTINEN, V.-P. LEHTO, A.-L. KARINIEMI, AND R. PAASIVUO	635
Differentiation of the Major Human Tumor Groups using Conventional and Monoclonal Antibodies Specific for Individual Intermediate Filament Proteins. <i>By</i> MARY OSBORN, MICHAEL ALTMANNBERGER, ELKE DEBUS, AND KLAUS WEBER	649
Summary: Intermediate Filaments 1984. <i>By</i> MARY OSBORN	669

Poster Papers

Hormonal Regulation of Vimentin in the Ciliary Epithelium of the Mammalian Eye. By MIGUEL COCA-PRADOS	682
High Molecular Weight Proteins Associated with Fibroblast Intermediate Filaments. By K. J. GREEN, N. LIESKA, H.-Y. YANG, AND R. D. GOLDMAN	686
Vimentin Binds to the Human RBC Membrane and Associates with Ankyrin. By S. GEORGATOS, D. C. WEAVER, AND V. T. MARCHESI	691
Chemotactic Factors Induced Vimentin Phosphorylation in Rabbit Peritoneal Neutrophil. By CHI-KUANG HUANG, JOHN M. HILL, JR., BARBARA-JEAN BORMANN, WILLIAM M. MACKIN, AND ELMER L. BECKER	694
Distribution of Intermediate Filaments and Their Associated Proteins during Various Stages of the Mammalian Cell Cycle. By J. C. R. JONES, A. E. GOLDMAN, H.-Y. YANG, AND R. D. GOLDMAN	695
Studies of a Covalently Cross-linked Cell Matrix in Striated Muscle Fibers. By A. G. LOEWY, J. L. NORTHROP, AND H. S. KAUFMAN	699
Degradation of Vimentin in a Cataract Model: The Ca ²⁺ -Treated Lens. By L. LORAND, S. M. CONRAD, AND P. T. VELASCO	703
cDNA Cloning of an Extraembryonic Endodermal Intermediate Filament Protein. By ROBERT G. OSHIMA AND KATRINA TREVOR	708
Heat Shock Causes a Rearrangement in the Intermediate Filament Cytoskeleton in <i>Drosophila</i> . By M. M. SANDERS, D. F. TRIEMER, AND B. BRIEF	710
Biochemical and Immunocytochemical Localization of Heat-Shock Proteins in <i>Drosophila</i> Cultured Cells. By ROBERT M. TANGUAY, JEAN-LOUP DUBAND, FRANCINE LETTRE, JEAN-PAUL VALET, ANDRÉ PATRICK ARRIGO, AND LOUIS NICOLE	712
Changes in the Interaction between Vimentin and an Associated Protein, p50, Correlated with the Formation of Vimentin Bundles in Senescent Human Fibroblasts. By EUGENIA WANG AND PHIL HUIE	715
The Synthesis and Distribution of Intermediate Filament Proteins during Differentiation and Maturation of the <i>Xenopus</i> Oocyte. By C. C. WYLIE, S. F. GODSAVE, JANET HEASMAN, AND B. H. ANDERTON	718
Mitosis-Specific Phosphorylation of Vimentin. By GARY W. ZIEVE ..	720
Immunohistochemical Localization of Keratins in Skin and Internal Organs of Mouse Fetus during Development. By L. P. ANDREWS, Y. J. WAN, R. K. CLARK, AND I. DAMJANOV	724

Expression of a 50K Keratin Is Characteristic of Mouse Mammary Myoepithelial Cells. <i>By</i> HAROLD L. ASCH AND BONNIE B. ASCH	726
Keratin Protein in Human Prostatic Tissue and Cell Culture. <i>By</i> MICHAEL K. BRAWER, DAVID G. BOSTWICK, DONNA M. PEEHL, AND THOMAS A. STAMEY	729
Expression of Keratin Polypeptides in Human Embryonal Carcinoma Cells. <i>By</i> I. DAMJANOV, R. K. CLARK, AND P. W. ANDREWS	732
Some Pemphigus Autoantibodies React with Desmosomes. <i>By</i> JAMES G. KRUEGER, D. MARTIN CARTER, MALCOLM S. STEINBERG, AND GEORGE J. GIUDICE	734
Alterations in Mouse Epidermal Keratin Production Induced by Dietary Vitamin A Deficiency. <i>By</i> CHRISTOPHER J. MOLLOY AND JEFFREY D. LASKIN	739
Expression of Three Different Types of Intermediate Filaments in Heterokaryons Formed Between Epithelial Cells and Glioma Cells or Fibroblasts. <i>By</i> PEKKA LAURILA AND ISMO VIRTANEN	741
Evidence for The Presence of Cytokeratin-Like Protein in Preimplantation Mouse Embryos. <i>By</i> E. LEHTONEN AND I. VIRTANEN	744
Monoclonal Antibodies to Intermediate Filament Proteins as Diagnostic Reagents in Surgical Pathology. <i>By</i> ALLEN W. GOWN AND ARTHUR M. VOGEL	748
High Molecular Weight Keratins Are Not Expressed in GGT-Positive Areas of Skin Tumors. <i>By</i> M. CHIBA, C. J. CONTI, D. THETFORD, T. J. SLAGA, AND A. J. P. KLEIN-SZANTO	752
Intermediate Filament Proteins of Mid-gestation Trophoblast Giant Cells Are Simple Epithelial Cytokeratins. <i>By</i> STANLEY R. GLASSER AND JOANNE JULIAN	755
Dependence of Keratin Intermediate Filament Organization on Microtubules, Microfilaments, and Membrane Association Sites. <i>By</i> LOREN W. KNAPP, W. MICHAEL O'GUIN, AND ROGER H. SAWYER	758
Absence of Intermediate Filaments in a Human Adrenal Cortex Carcinoma-Derived Cell Line. <i>By</i> KAREN K. NADAKAVUKAREN AND LAN BO CHEN	762
Tissue Distribution and Immunohistochemical Localization of Novikoff Hepatoma Cytokeratin p39 Using Specific Monoclonal Antibodies. <i>By</i> W. N. SCHMIDT, D. L. PAGE, C. A. SCHMIDT, K. B. MCKUSICK, S. N. WARD, AND L. S. HNILICA	766

Cell Density-Dependent Glial Filament Expression in a Human Astrocytoma Clonal Cell Line. <i>By</i> J. GREGORY CAIRNCROSS AND GEORGETTA R. DENHARDT	771
Production and Characterization of Monoclonal Antibodies to Alzheimer Paired Helical Filaments. <i>By</i> D. J. SELKOE, C. ABRAHAM, C. G. RASOOL, A. MCCLUSKEY, AND L. K. DUFFY	774
The Localization of Domains on Neurofilament Polypeptides. <i>By</i> P. A. M. EAGLES, ALISON MAGGS, AND ANNE C. PATON	779
Expression of Intermediate Filament Proteins in Astrocytes. <i>By</i> J. E. GOLDMAN AND F.-C. CHIU	782
The Role of Neurofilaments in the Control of Axonal Caliber. <i>By</i> PAUL N. HOFFMAN, JOHN W. GRIFFIN, AND DONALD L. PRICE	785
Non-Uniform Distribution of Neurofilament Epitopes in the CNS During Development. <i>By</i> R. HOFSTEIN, R. E. MAJOCHA, C. J. BARNSTABLE, AND C. A. MAROTTA	787
Glial Filament Protein Expression and Mitotic Activity in Astroglial Cell <i>in Vivo</i> . <i>By</i> P. BOVOLENTA, R. K. H. LIEM, AND C. A. MASON	790
Neurofilament Proteins in Goldfish Optic Axons. <i>By</i> IRVINE G. MCQUARRIE, LINDA L. PHILLIPS, AND LUCILA AUTILIO-GAMBETTI	792
Characterization of Interspecies Size Heterogeneity of the Large Subunit of Mammalian Neurofilaments. <i>By</i> CYRIL KASPI AND WALTER E. MUSHYNSKI	794
Evidence for a Stationary Non-uniform Network of Neurofilaments along Retinal Ganglion Cell Axons. <i>By</i> R. A. NIXON, K. A. BISHOP, AND W. H. FISHER	797
Characterization of Cleavage Products of Purified Neurofilament Subunits Degraded by Ca^{2+} -Activated Protease. <i>By</i> PAOLA PAGGI AND RAYMOND J. LASEK	801
Intermediate Filament Proteins Associated with Optic Nerve and Spinal Cord Regeneration. <i>By</i> W. QUITSCHE AND N. SCHECHTER	805
Characterization of a Specific Neurofilament Protein Kinase. <i>By</i> M. PIERRE, D. TORU-DELBAUFFE, J. FRANCON, J. OSTU, AND F. CHANTOUX	808
Regional Distribution of Squid Neurofilament Proteins. <i>By</i> M. TYTELL, W. D. HILL, R. D. GOLDMAN, AND R. V. ZACKROFF	812
A Comparative Study on the Substructures of Neurofilaments and Paired Helical Filaments from Alzheimer Neurofibrillary Tangles. <i>By</i> H. M. WISNIEWSKI AND G. Y. WEN	814

Phosphorylation State Affects the Association of the 150,000 Dalton Neurofilament Protein with the Filament. <i>By</i> J. WONG, S. B. HUTCHISON, L. BRANDEIS, AND R. K. H. LIEM	816
The Compositions of Neurofibrillary Tangles of the Senile Dementia of the Alzheimers Type: An Immunological Study. <i>By</i> S.-H. YEN, H. REDING, P. DAVIES, AND G. CIMENT	819
Human Myoepithelium-specific Monoclonal Antibody. <i>By</i> SHAHNAZ HASHMI DAIRKEE, DANIEL E. THOR, ADELINE J. HACKETT, AND HELENE S. SMITH	826
Index of Contributors	830
